

#### 7.1.4. Water conservation facilities available in the Institution:

1. Rain water harvesting
2. Bore-well /Open well recharge

In the college we have rain water harvesting system is working properly . Rain water is drained into college field or flower bed. We hope that in near future, the college will have functional rain water harvesting technique like storage tank and underground tank . The college using the underground water through the bore-wells to meet the purpose such as drinking, for washrooms, irrigation for the gardens.

### Rain water harvesting

# Bore-well /Open well recharge
