Soft SkillS

- Our college established in English Language Lab under PM UShA Fund.
- 20 computer and work station with English Language Lab and audio system.
- Language labs are becoming highly valued in colleges because they offer students a structured e-learning environment that is successful and reliable.
- Listening, Speaking, Reading and Writing are the four skills which play an important role in the acquisition of language and learning.
- English Language Lab has had a tradition of helping learners improve their English, whether for work, personal enrichment or English for Academic Purposes.
- The language lab is a very useful tool that facilitates classroom engagement and interaction via computer-based exercises and activities to maximize language immersion.
- These labs provide a very different experience from the traditional system of teaching and learning languages, offering more advanced features and functionalities.

Types of Skills

- Hard skills are the specific abilities that are required for a certain job.

- These abilities are specific and teachable, and they can be easily defined and measured.

- Usually, people learn hard skills at school or in their previous jobs.

- For example, if you're hiring for engineering roles, hard skills may include things like a professional engineer designation, experience with welding equipment, or the ability to repair equipment.

- Hard skills may also include proficiency in a foreign language, like French or Spanish.

- Soft skills, also called interpersonal skills, are abilities that can be useful in any job.

- Unlike hard skills, these skills are vague and hard to define.

- They're harder for you to quantify since candidates may not list them on their resumes.

- These skills include things like communication, motivation, teamwork, time management, work ethic, and flexibility.

Soft Skills

Tally

Power of Simplicity

What is Tally and Why You Should Learn It?

TAX

- Our college established in Tally Lab under PM UShA Fund.
- 20 computer and work station with Tally software audio system.
- Pre-admission process reduces the hectic job of maintaining physical documentation as the process can be simplified by documents being scanned and attached in the software itself.
- Get reports based on class, subject, division, caste, etc. and give additional usage of getting I-Cards, students' declaration, bona fide certificate and other Student related reports
- Fees Management System acts as a strong tool as it can define fees per student based on their standard and category they belong to. Generate monthly/daily reports for individuals or class wise,
- Exams & Result Management an integral part of Educational ERP, this feature helps in managing individual and group subject marks based on specific board standards classified individual and class wise.
- Transportation Management helps to ease the tedious job of fees booking as per the routes

defined with the pick-up and drop-down points as specified per student.

➢ Library Management System as everything i.e. book title, category, author, year of publication, etc. can be recorded and a bar code printed on the book with a serial number.

➢ Tally.ERP 9 delivers integrated payroll software which is completely rewritten to provide all the necessary payroll compliances including Income Tax, PF and ESIC.
